DETAILED ACTION

Claim Objections

1. Claim 50 is objected to because of the following informalities: the claim refers to the structure in claim 1, while claim 1 is cancelled. Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. Claims 17-66 are rejected under 35 U.S.C. 102(e) as being anticipated by Litwin et al., hereinafter Litwin (U.S. 6,100,770), newly cited.

Regarding claims 17, 23-27, 38, 43-46, 53, and 61, Litwin discloses in figure 4 a structure comprising a varactor which comprises a plate region 13 and a body region 12 with plate electrode 17 and a body electrode 19; a dielectric 15 of figure 1 and a gate electrode 16 of figure 4.

Regarding claims 18, 19, 21, 28, and 41, see figure 4.

Art Unit: 2814

Regarding claims 20, 29, 30, 39, and 40, capacitance dependency on the plate area, an inversion layer in the body region, and dependency of the capacitance on the inversion area all are inherent properties of the device.

Regarding claims 47-52, 55, 56, 57-60, and 63, see figure 6 and column 6, lines 18-67.

Regarding claims 22, 31-37, 42, 54, 62, and 64-66, see figure 10, and column 8, lines 52-67.

Response to Arguments

4. Applicant's arguments with respect to the rejected claims in the previous office action have been considered but are moot in view of the new ground(s) of rejection.
